## 4 1 Acknowledgements

- 10 We thank Sylvia Yamada, Ted Grosholz, Brian Turner, and Tom Therriault for providing valuable feed-
- back on European green crab population dynamics and model development; Northwest Straits Commission,
- Washington Department of Fish and Wildlife, community volunteers, Veterans Conservation Corps, Wash-
- ington Conservation Corps, and Washington Sea Grant for data collection and management. This material
- 14 is based upon work supported by the U.S. Department of Energy, Office of Science, Office of Advanced
- <sup>15</sup> Scientific Computing Research, under Award Number DE-SC0024386. This material is based in part upon
- work supported by the National Science Foundation under Grant No. DBI-1942280 and a grant from U.S.
- 17 Geological Survey.

### <sup>18</sup> 2 Disclaimer

- 19 This report was prepared as an account of work sponsored by an agency of the United States Government.
- 20 Neither the United States Government nor any agency thereof, nor any of their employees, makes any
- warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness,
- or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not
- infringe privately owned rights. Reference herein to any specific commercial product, process, or service by
- trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement,

- recommendation, or favoring by the United States Government or any agency thereof. The views and opinions
- <sub>26</sub> of authors expressed herein do not necessarily state or reflect those of the United States Government or any
- 27 agency thereof.

### 28 3 Conflict of interest

29 The authors declare no conflict of interest.

#### 30 4 Author contributions

- 31 A.G. Keller, B.G., Goldstein, and P. de Valpine conceived the ideas and designed methodology; L. Skare
- 32 collected the data; A.G. Keller and P. de Valpine analysed the data; A.G. Keller led the writing of the
- manuscript. All authors contributed critically to the drafts and gave final approval for publication.

### <sub>34</sub> 5 Data availability statement

- 35 All data and R code associated with this analysis are publicly available and can be found on GitHub
- https://github.com/abigailkeller/IPMsquared. After final revision, data and R code will be published with
- a DOI in the Zenodo archive.
